OVERVIEW

# TCB BRANDS

## OUR COMPANY

The Brasserie Champigneulles is one of the four breweries belonging to the TCB Group.

## TOGETHER WORLDWIDE

We combine the traditional art of brewing with flexible bottling, and deliver to customers all over the world. **TCB Beverages adapts to its customers' wishes!**

### A SUCCESS STORY

In 2003, **TCB** took over **Frankfurter Brauhaus** in Frankfurt (Oder), where today's headquarters of the **TCB** Group are located. From that time, the demand for PET bottles grew rapidly, which resulted in the founding of **ViaPlast** in 2005. Since then, ViaPlast has been managing the production of recyclable packaging. With the purchase of the French **Brasserie Champigneulles** Brewery in 2006, market shares grew

and a separate sales and distribution company became essential. Continuing investments in modern bottling equipment increased sales volume and revenues, and made it possible in 2011 to buy the "**Feldschlößchen**" Brewery in Dresden. Co-operation with large European retail chains such as **Mercadona, ALDI, EDEKA, LIDL, NORMA** and other well-known international key customers accelerated the growth of our brewery group, allowing the acquisition of the traditional German **Gilde Brewery** from Hannover in 2015. With currently four production sites and an annual production of about 9 million hectolitres of beer, **TCB** combines the German and French art of

brewery, selling first-class and multi-award winning types of beer under one roof!

# OUR COMPANY

A peek into the heart of the Brasserie Champigneulles.

## PRIVATE LABEL

As the **largest Private Label beer producer in Europe**, we will deliver your personalised product to you, packaged according to your wishes. **Together, we will create your own brand!** We will fill your ideal packaging with your desired beer. You can choose from five kinds of packaging to determine the look of your beer.

## OUR BRANDS

Our four brewery sites deliver first-class quality, and will win you over with many years' experience in the traditional art of brewing. We are therefore able to offer our customers a multi-faceted product range: Whether **classic Lager, standard Pilsner, Stout, Dark beer, Pale Ale, Non-alcoholic beer, Wheat beer, Malt beer** or **mixed drinks** such

as **Radler, Cider** and **hard Seltzer** - our brands have something for every taste.

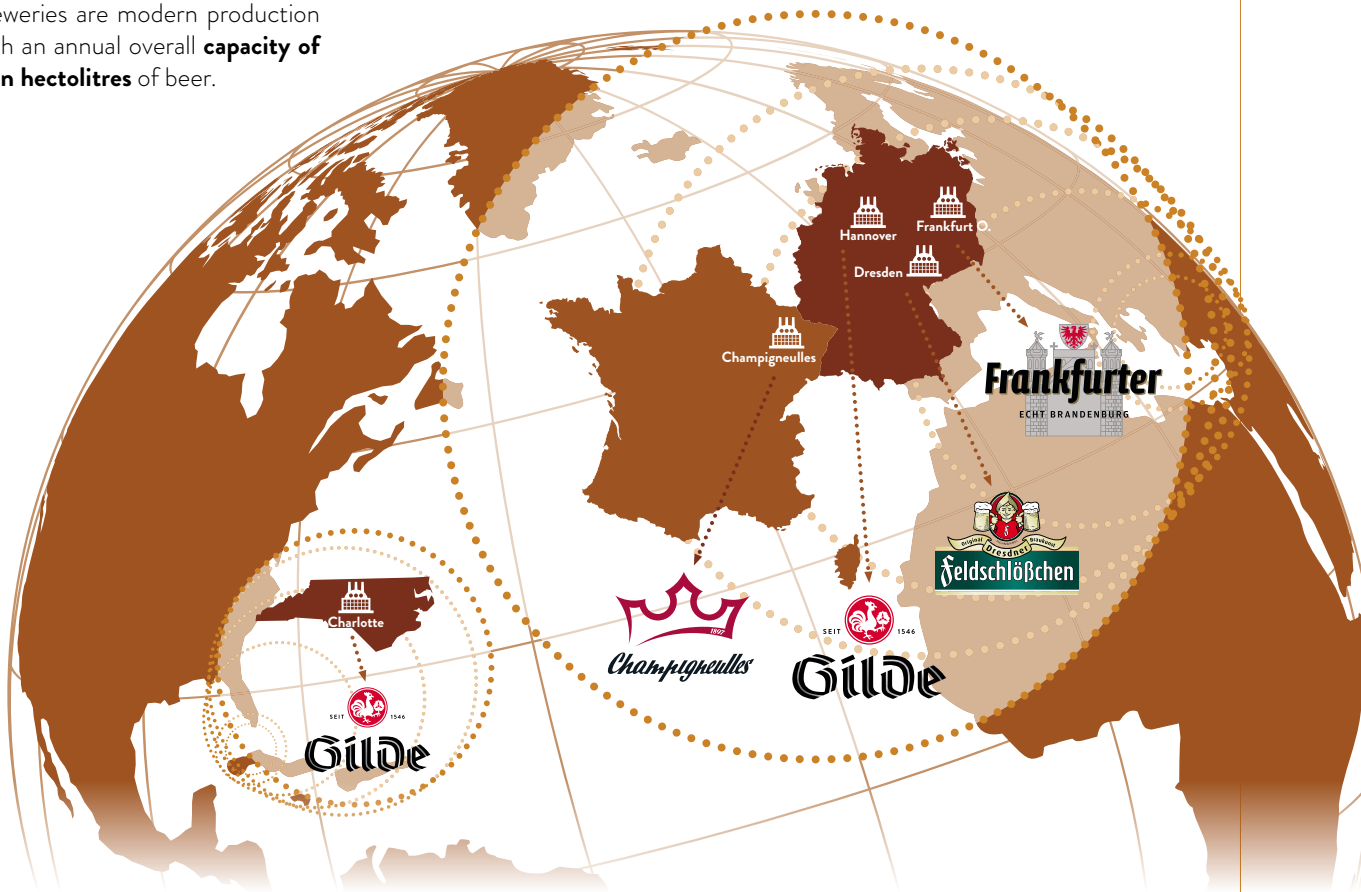

## OVERVIEW OF OUR EXPERTISE

- Export of high-quality European beer varieties
- Private Label Service
- Customised packaging
- Large selection of types of beer at the best prices
- Fast delivery times
- Low transport costs
- 100% private ownership
- IFS and BRC certified

## PRODUCTION SITES

Our breweries are modern production sites with an annual overall **capacity of 11 million hectolitres** of beer.

### FRANKFURT/ODER

With the acquisition of **the group's first brewery**, extensive investment in modernisation took place as early as 2003. Today, **Frankfurter Brauhaus** has three **PET lines**, one bottling line for **reusable bottles**, one for **kegs** and a **new can filling line in 2019**. We are therefore able to produce an overall volume of up to **3 million hectolitres**. Whether Pilsner, Export, Wheat beer, Radler or Premium festival beer, Frankfurt produces **multi-award winning types of beer**.

### CHAMPIGNEULLES

Champigneulle is the **oldest active brewery in France**. Since 1897, this name has been a **synonym for quality**. Today, in addition to its own brand, **numerous beer specialities** are brewed at this site, which are sold to supermarket

chains and well-known retail brands in all of Europe. In total, this site can produce more than **4 million hectolitres of beer**, with **three bottling lines for bottles**, **three for cans** and **one for kegs**.

### DRESDEN

Part of the TCB Group since 2011, the Feldschlößchen Brewery has a **long brewing tradition**. Top-class quality beers such as Pilsner, Wheat beer, Export, Non-alcoholic, Urbock, Radler and Black beer are from Dresden. The site can produce more than **2 million hectolitres of beer**, in **glass bottles, cans** and **kegs**. Thanks to **premium quality** and a comprehensive range, Feldschlößchen is a reliable partner for retail chains, specialist beverage markets and the HORECA trade.

### HANNOVER

Gilde Brewery from Hannover has been part of the brewery group since 2015, and is of great importance, with a capacity of more than **1,5 million hectolitres**. This **traditional large brewery** is the **oldest business in Hannover**. Its range is multi-faceted. The types of beer produced include Premium Pils, Pilsner, Radler, Wheat beer, Non-alcoholic and special beers.

### CHARLOTTE (USA)

Gilde1546 has been open since 2022 in Charlotte, North Carolina, USA. The **pub brewery** is a meeting point for lovers of **real craft beer**, friends of German culture and everyone looking for a cool location with friendly faces.

## CHAMPIGNEULLES

## FRANKFURTER BRAUHAUS

**CAPACITY:** more than 3,000,000 hl

## FELDSCHLÖBCHEN

**CAPACITY:** more than 2,000,000 hl

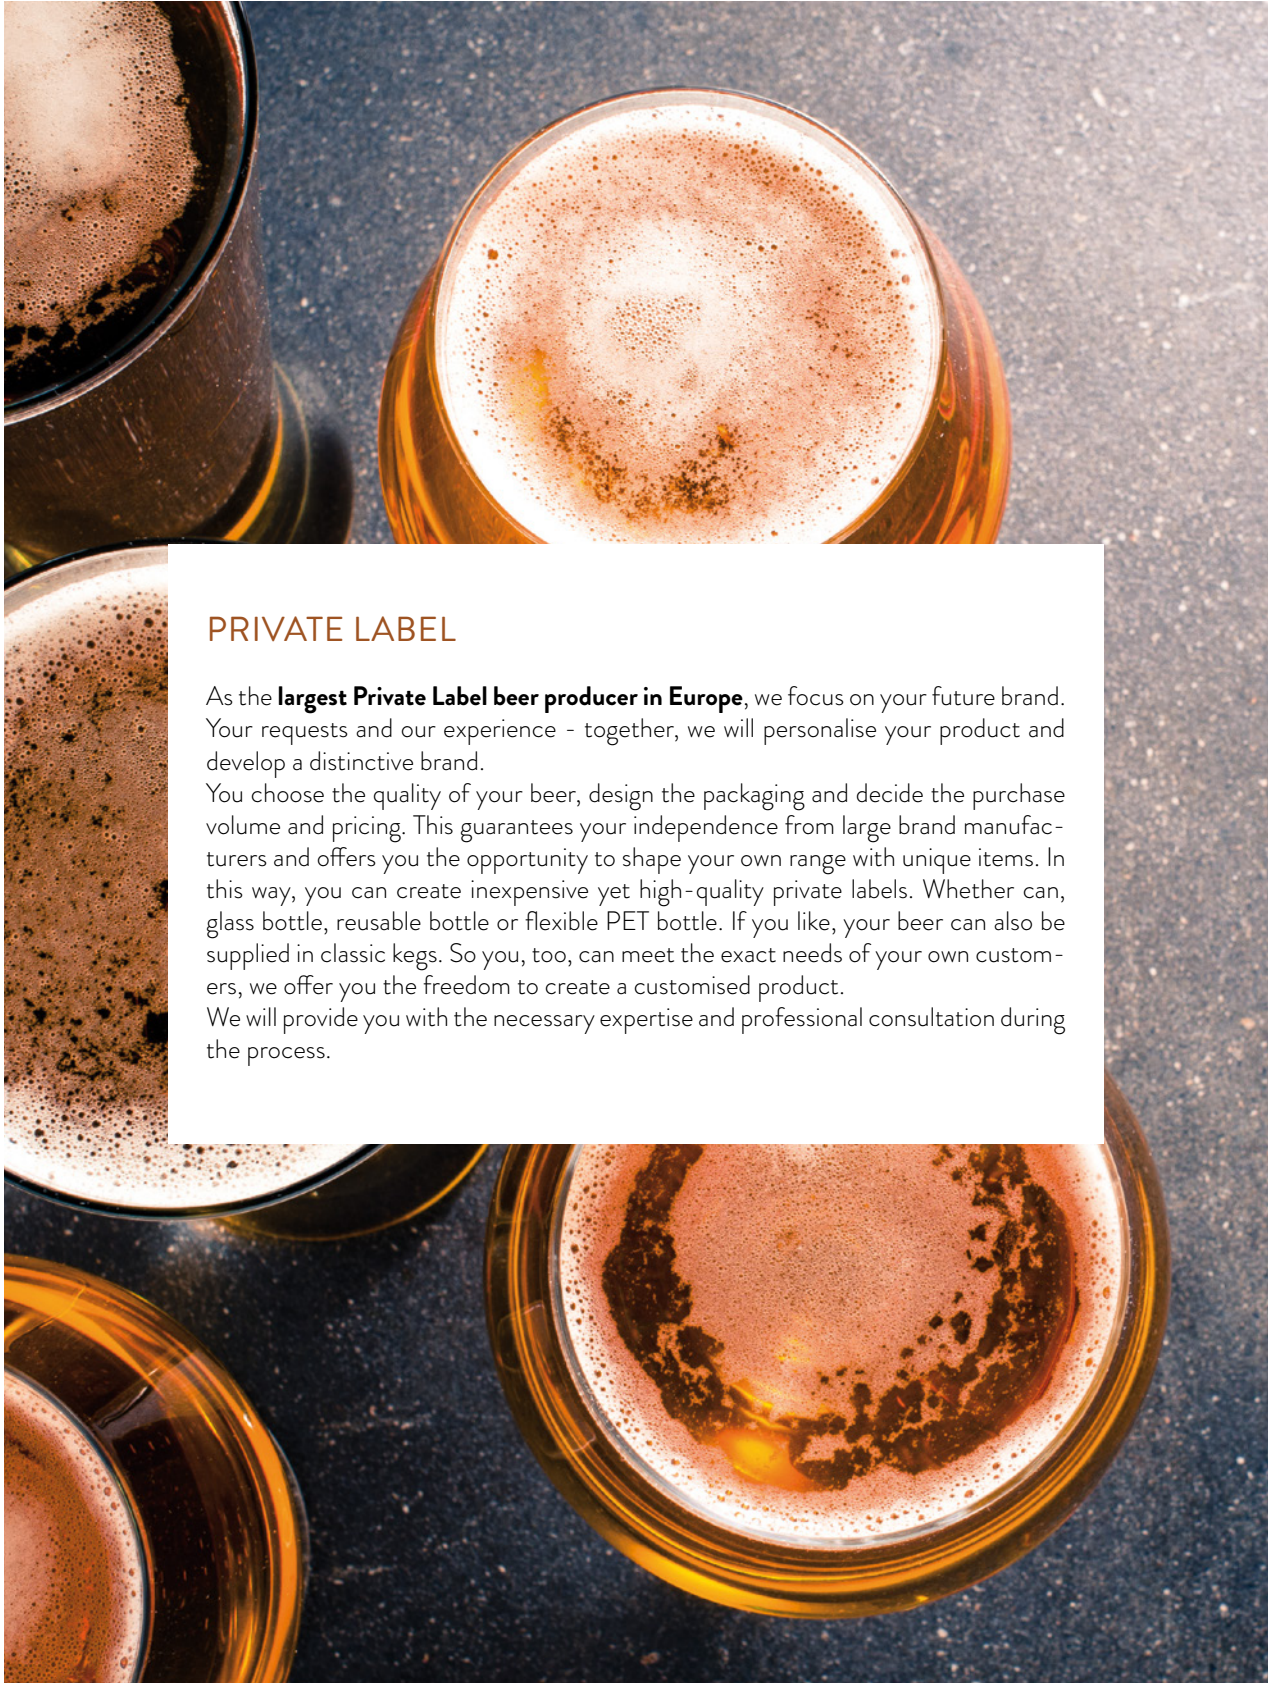

## GILDE

**CAPACITY:** more than 1,500,000 hl

# PRIVATE LABEL

## PRIVATE LABEL

As the **largest Private Label beer producer in Europe**, we focus on your future brand. Your requests and our experience - together, we will personalise your product and develop a distinctive brand.

You choose the quality of your beer, design the packaging and decide the purchase volume and pricing. This guarantees your independence from large brand manufacturers and offers you the opportunity to shape your own range with unique items. In this way, you can create inexpensive yet high-quality private labels. Whether can, glass bottle, reusable bottle or flexible PET bottle. If you like, your beer can also be supplied in classic kegs. So you, too, can meet the exact needs of your own customers, we offer you the freedom to create a customised product.

We will provide you with the necessary expertise and professional consultation during the process.

## CANS

Practical 33 cl to 50 cl steel or aluminum cans are used for our product, and can be delivered as a handy shrink pack or in robust cardboard trays, with printing, of course.

TCB  
BRANDS

## STRONG BRANDS FROM TCB

Thanks to our organisational structure, we are able to serve the market with **quality-tested and award-winning beer varieties**.

Our four breweries stand for continuity and tradition, and produce multi-faceted beers in accordance with the German Purity Law and the French art of brewing. Select the product of your choice from our variety: Whether classic lager, standard pilsner, stout, dark beer, pale ale, non-alcoholic beer, wheat beer, malt beer or mixed drinks such as Radler, hard Seltzer and Cider - we have something for every taste. Choose from different categories.

## OUR BRANDED BEERS UNIQUELY DIFFERENT

### FELDSCHLÖßCHEN A SPECIAL PREMIUM

This varied range covers beer varieties from classically aromatic, via refreshingly light to tangy, accented with hops. Pilsner, Export, Non-alcoholic, naturally cloudy Radler and regularly changing limited edition beers characterise an extensive product variety. Feldschlößchen Urbock is also part of the Premium Group. In 2013, it was awarded Best European Bock Beer at the World Beer Awards. Feldschlößchen beer varieties are available in glass bottles, PET bottles, cans and kegs.

# TCB BRANDS

## FRANKFURTER BRAUHAUS AUTHENTIC BRANDENBURG

The combination of the traditional art of brewing with modern technology is what makes Frankfurter Brewery so successful today. Our brands „Frankfurter“ and „Pilsator“ are the best proofs of our mastery in brewing. Among other prizes, we were able to win the Federal Honor Award of Germany. Our traditional recipes have their origins in East Germany and are now experiencing their renaissance in the Frankfurter brewery. Frankfurter beer varieties are available in glass bottles, PET bottles, cans and kegs.

## OUR BRANDED BEERS UNIQUELY DIFFERENT

### GILDE BREWING ART SINCE 1546

---

Originally brewed in 1526, Gilde is a beer with deep roots in German history. It is brewed with the finest barley, hops and water. The unique hop blend gives the beer a delicate aroma while the malt provides a distinctly crisp finish. The Broyhan Taler was the traditional currency used in Hannover at the time and the rooster became the symbol of Gilde. Gilde beer varieties are available in glass bottles, cans and kegs.

## CHAMPIGNEULLES TRADITIONALLY STRONG

The purest spring water and carefully selected ingredients characterise the flavour of Champigneulles - a special beer brewed according to a traditional French recipe. Absolutely pure, with a high percentage of alcohol, it will win you over with its golden colour and harmonious and flowery aroma; also available as a monastery beer.

Champigneulles also offers a non-alcoholic lager with citrus flavour – light, fruity, refreshing and low in calories.

## OUR BRANDED BEERS UNIQUELY DIFFERENT

### ASKANIA UNIQUELY LIGHT

---

Askania is a very light lager, very easily digestible, thanks to its low percentage of alcohol of just 4.5%. A slight carbon dioxide content and reduced original gravity underline its character.

Askania is available in glass bottles, cans, PET bottles and kegs. In addition, we are offering a flavourful non-alcoholic malt drink of this brand.
